

H₂Oud

Experience the Difference

Product Introduction

H2Oud **iNTEGA**
International Gaharu

Through scientific studies, science journals & various references in medical books have proven that the main benefit of agarwood water is to repair & improve the function of the body's organs.

iNTEGA H2Oud is an innovation based on agarwood distilled water & a combination of some special ingredients that have passed safety tests & gone through various scientific studies (R&D).

The microbial & functional fungi in H2Oud botanical drink that are proven to be safe to drink & contain very high health value for the body.

Approval of Scientific Research & Development

1. **MALAYSIAN GENOME & VACCINE INSTITUTE**
 - iNTEGA H2Oud MANGO
 - iNTEGA H2Oud BLACKCURRANT

"In Vitro Cytotoxicity Test shows that iNTEGA is not toxic to cells and can increase the proliferation of kidney cells (HEK293)"

2. **SGS (MALAYSIA) SDN. BHD.**
Certificate of Safety Analysis indicates iNTEGA H2Oud is free from:
 - i. Heavy metals
 - ii. Harmful microbes
 - iii. Porcine DNA

3. **APICAL SCIENTIFIC SDN. BHD.**
"The Certificate of Analysis shows the presence of microbial (16S) and Endophytic fungi (ITS) which are very useful for the body"

4. **THE NATIONAL UNIVERSITY OF MALAYSIA**
"Preliminary results of the microbial population analysis in iNTEGA H2Oud which has 6 functions & benefits for the body"

5. **THE NATIONAL UNIVERSITY OF MALAYSIA**
"Safe to drink, proven to be pure because it is free of Porcine DNA and has high health value."

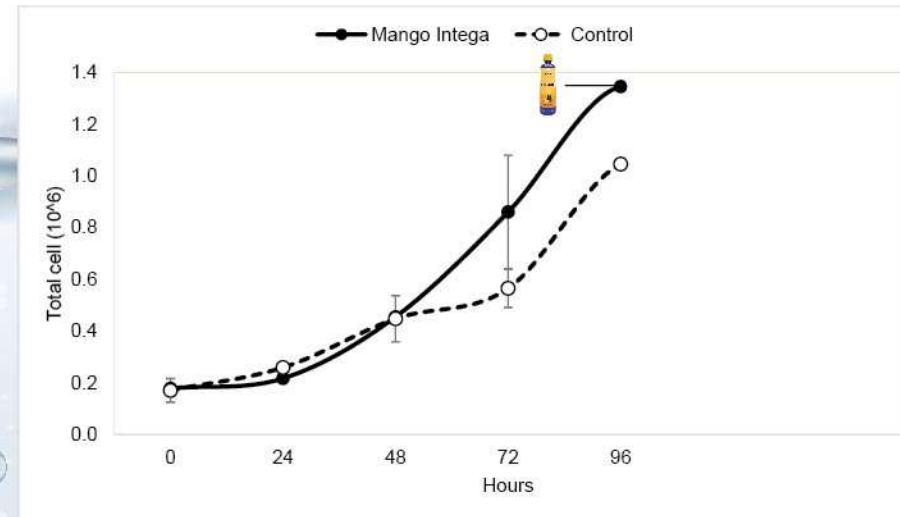

6. **MINISTRY OF HEALTH MALAYSIA (MOH)**
"Registration of iNTEGA H2Oud products under the Food Act 1983"

7. **FACTORY CERTIFICATION**
"Halal Jakim status, Ministry of Health Malaysia under the Food Act 1983 & GMP certified"

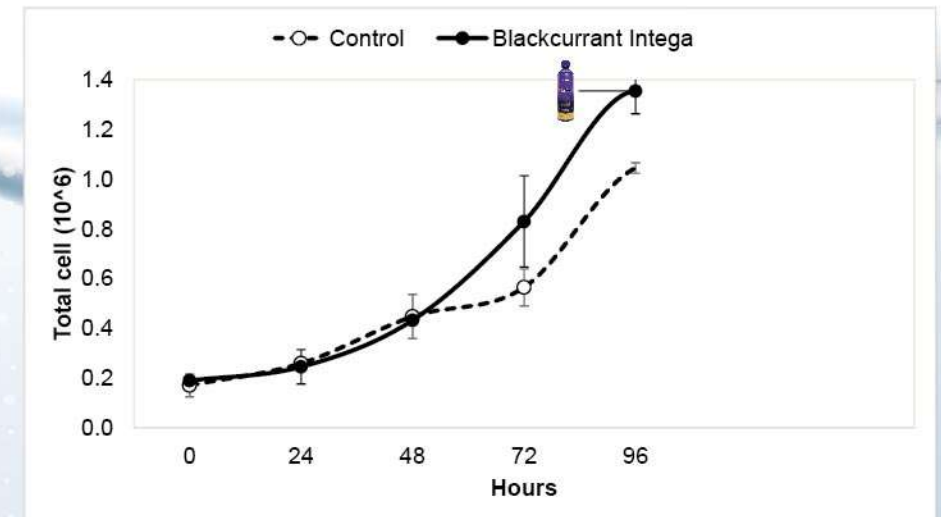

8. **BIO SYNERGY LABORATORIES SDN. BHD.**
"Safety Data Sheet for export usage"
iNTEGA H2Oud MANGO

9. **BIO SYNERGY LABORATORIES SDN. BHD.**
"Safety Data Sheet for export usage"
iNTEGA H2Oud BLACKCURRANT

R&D on Kidney Cells & H2Oud Effectiveness

H2Oud Mango

H2Oud Blackcurrant

HEK293 (kidney) cell enhancement reached between 39% to 70% using iNTEGA H2Oud (Black Line).

This R&D proves that iNTEGA H2Oud is non-toxic is able to help the proliferation of kidney cells (HEK293) more & faster.

Pictures of HEK293 Cell Reproduction (Kidney)

A. 1-1 HEK293: Control plate (DMEM 5% FBS in ultrapure water)

A. 1-2 HEK293: Test plate (DMEM 5% FBS in iNTEGA Mango)

A. 1-2 HEK293: Test plate (DMEM 5% FBS in iNTEGA Blackcurrant)

*The numbers in this cell picture show the total number of cells

iNTEGA H2Oud has a high health value due to the presence of functional microbial & fungi required by the body. *(Can be seen with the naked eye).*

Microbial & functional fungi that helps to repair & improve kidney function.

The Benefits of Agarwood Water

According to Medical Books, Journals & Scientific Studies

H₂Oud

iNTEGA

International Gaharu

*Repair & improve organ
function.*

*Control & lower down
blood sugar levels.*

*Acts as an anti-cancer,
anti-viral &
anti-inflammatory.*

*Increase & stabilize male/
female hormones.*

*Increase the body's
immunity.*

*Improve blood
circulation.*

*Lower down & stabilizes
blood pressure.*

*Beneficial for the digestive system
& cleanses the stomach and
intestines.*

Preliminary Results of **Microbial Population Analysis in H2Oud**

PROF. DR. AZIZAN AHMAD

Chief Research Officer,
National Chemist,
The National University of Malaysia

H2Oud **iNTEGA**
International Gaharu

Based on the preliminary study for the microbial population analysis that has been carried out, we can make a brief **conclusion that iNTEGA H2Oud (Agarwood Botanical Drink)** contains microbes that have been identified as having the following functions:

Gut Microbiome (Balancing the microbial population in the stomach & intestines).

Urinary Tract Treatment (Reducing bladder infections).

Probiotics (Good bacteria).

Antimicrobial (Anti germs/ pathogens).

Antispasmodic (Reduces stomach aches).

Improve Blood Circulation.

Direction of Use

H2Oud **iNTEGA**
International Gaharu

NORMAL

Early Morning: 6-7 am **OR**
Late Evening: 6-7 pm

KIDS

Can be taken at anytime

BABY (2ml - 5ml a day)

CHRONIC DISEASE

Early Morning: 6-7 am **AND**
Late Evening: 6-7 pm

OPTIMUM CONSUMPTION:

After drinking H2Oud, continue with a glass of plain water between 100-150ml on an empty stomach. It is advised to drink plenty of plain water.

**(Note: H2Oud should be drunk straight away without mixing with the 1 glass of plain water)*
